

Subject : Testing the weight of conversion coating

Proposal VOA (Germany)

QUALICOAT resolution: Meetings on 17.11.05 and 29.06.06
(ratified on 22.11.06)

Date of application: 1st January 2007

Amendments to the Specifications: Section 6.2.2

6.2.2 Testing the weight of conversion coating (~~DIN 50939~~)

The weight of chromate conversion coatings must be tested in accordance with EN ISO 3892 and that of other conversion coatings following the chemical supplier's instructions (see Appendix A6) at least:

once a day (24 hours)

~~using the testing method described in section 3.2.2~~
