

Subject :	Use of no longer approved materials by licensees
Proposal	Executive Committee
QUALICOAT resolution:	Meeting on 29.06.06 (ratified on 22.11.06)
Date of application:	1st January 2007
Amendments to the Specifications:	<ul style="list-style-type: none">• Change in the title of section 3.5• Insertion of a new section 3.5.1 “Coating”• Instruction for suppliers (section 4.2)

3.5. Coating and stoving

3.5.1 Coating

The coater must use coatings approved by QUALICOAT. If a colour is banned the coater must stop immediately using this colour. If the approval for a coatings system is withdrawn, the coater is allowed to continue using it for a maximum of three months in order to complete unfinished work.

3.5.2 Stoving

The conditions between the spray booth and the oven must be absolutely free of dust and contamination.

[..]

4.2. Renewal of approvals

Consistent quality of approved systems is monitored annually with tests 1 to 15 (see section 4.1.) being performed

[..]

An approval will be withdrawn if more than five unsatisfactory colours are recorded.

As soon as an approval is cancelled, the supplier must stop using any reference to the approval when selling the coating concerned.
