

Circular letter 10/2018

(sent by e-mail and published on www.qualicoat.net)

To: suppliers of approved systems; copy to GLs and laboratories

Zurich, 22 March 2018
AC2/JSH/BP

WATER SPOT TEST

On 22 November 2017, the QUALICOAT Committee ratified an update sheet entitled "Water Spot Test", to become effective on 1 July 2018. This update sheet has already been published on the QUALICOAT website as Update Sheet No. 8 of the 15th Edition of the QUALICOAT Specifications and can be downloaded from <http://www.qualicoat.net/main/specifications.html>.

From 1 July 2018 onwards, the water spot test will be carried out by the QUALICOAT laboratories when conducting tests for granting and renewing approvals for coating materials. However, the implementation of this test will be experimental during the first two years (2018 and 2019) and any unsatisfactory results will be disregarded during this period.

Yours faithfully,

QUALICOAT

A handwritten signature in blue ink, appearing to read "J. Schoppig".
